Avantra & ServiceNow - IT Operations, Automated

Extend ServiceNow capabilities across your SAP® landscape.

Get deep insights into SAP systems performance fully integrated with ServiceNow

Avantra's next-generation AIOps and Automation platform for SAP combined with the ServiceNow platform together improve:

Visibility:

Using Avantra you'll get complete visibility to your SAP landscape's health and performance. Avantra significantly enriches ServiceNow CMDB data with detailed key SAP data including complete asset/inventory data, dependency mapping and tracking of any configuration changes ensuring compliance and audit readiness.

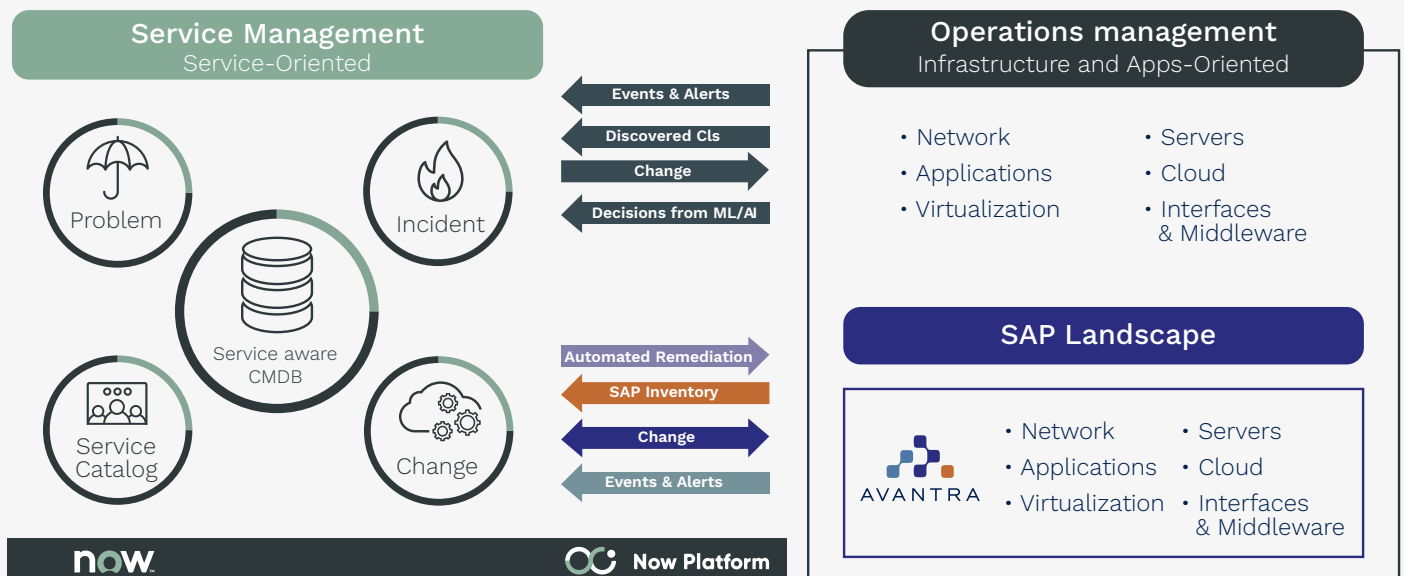

Health:

Avantra's full-stack AIOps automation integrates detailed SAP monitoring data into ServiceNow Event Management datasets. Using Avantra your team could easily identify incident root cause, detect issues early and even prevent SAP performance, health and compliance issues. Avantra Automatically creates and updates incidents in ServiceNow with meaningful and detailed SAP information.

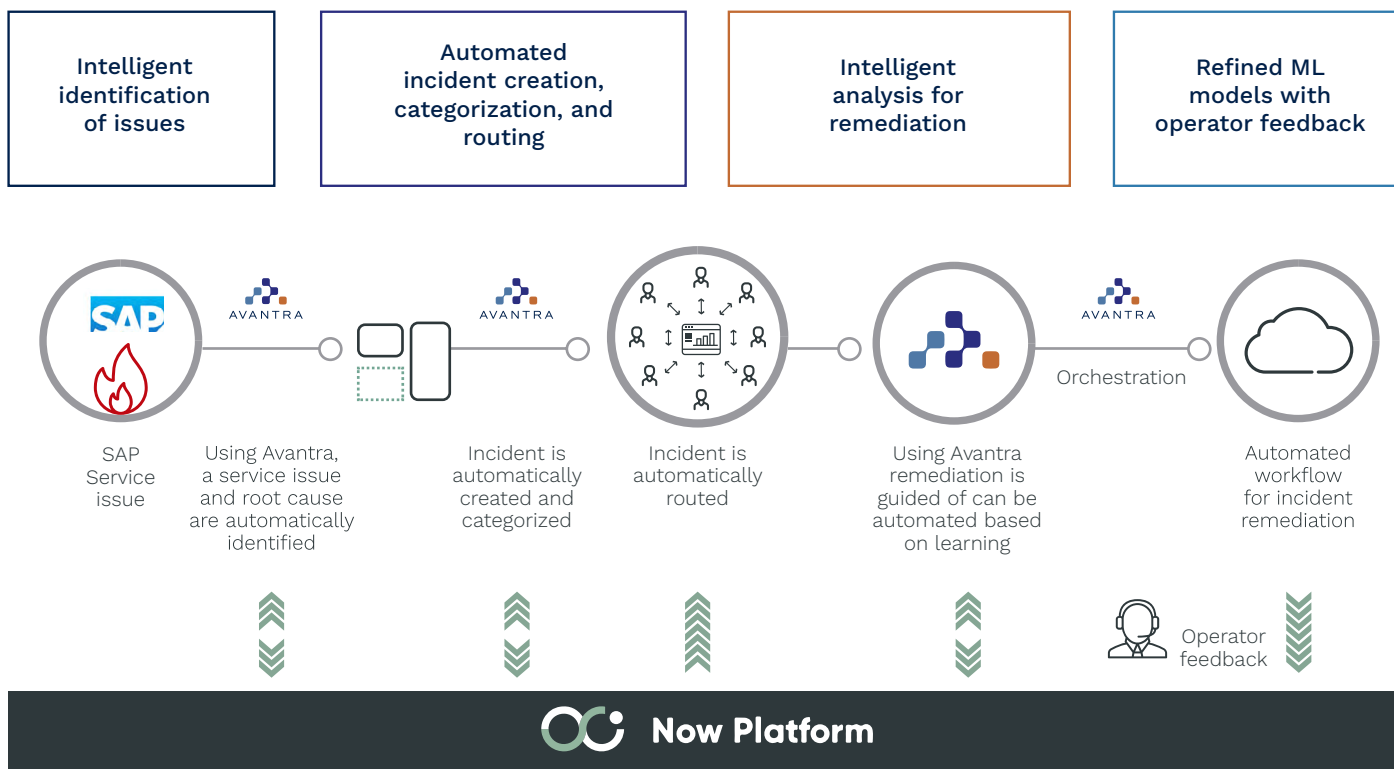

Optimization:

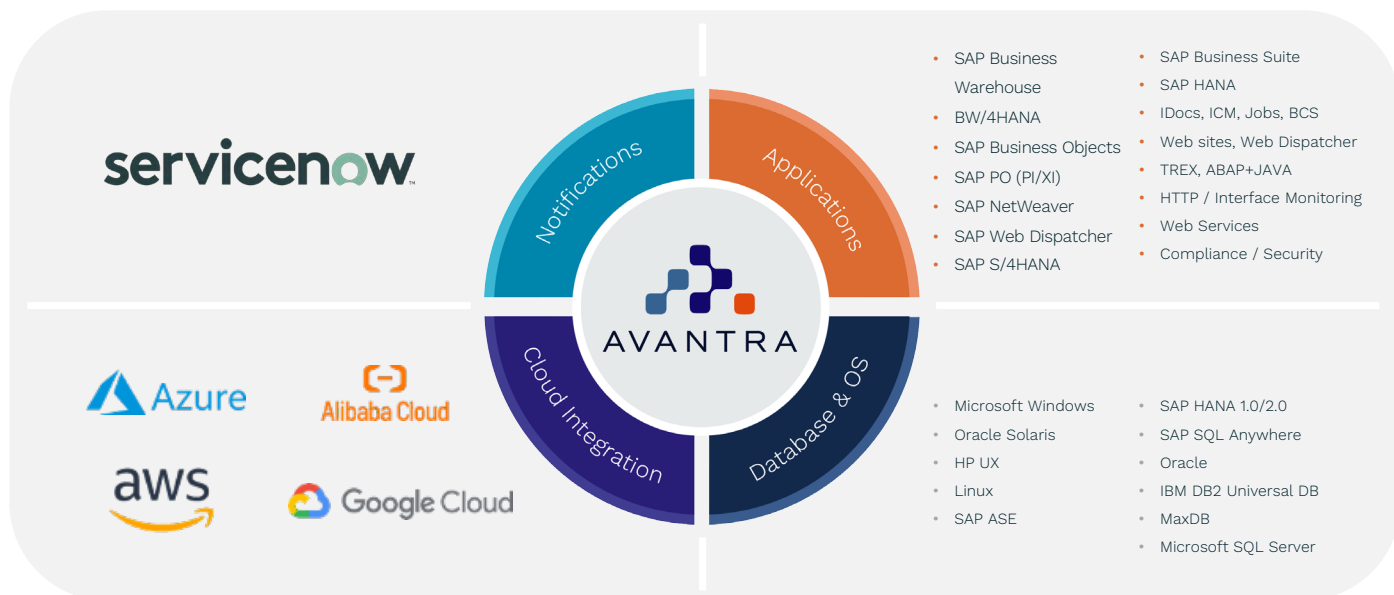

Avantra's advanced automation platform combined with the governance and control of the ServiceNow platform, allows businesses to auto scale, remediate, and patch complex and hybrid (cloud and on-premise) SAP landscapes based on business needs, budgets, system performance and available maintenance windows.

Avantra's industry-leading AIOps platform provides unmatched intelligence and insight into SAP landscape health, performance and compliance whether on the cloud, on-premises or in a hybrid environment.
