

# Avantra & Azure

## Empowering SAP operations teams with intelligent automation

Avantra is the industry-leading AIOps platform that simplifies SAP operations. Global enterprises and Managed Service Providers (MSPs) improve their business experience, performance, compliance, and re-focus valuable resources on digital transformation and reduce operational cost.

### **Automating and managing SAP on Azure**

Using Avantra, enterprises can benefit from an increased dynamicity and cost savings in running SAP on Azure, as it automatically scales the environment based on deep SAP integration and insights into its performance KPIs. Avantra has direct integration to Azure services to simplify the operation of SAP on Azure.

By combining Azure technologies with Avantra, customers benefit from greater innovation, operational efficiency, and risk mitigation along their cloud journey.

### Full-Stack Automation

#### Reduce Cost to Serve

Free up IT operational resources by automating best practice SAP management and enforcing compliance across the entire SAP stack. This kind of automation reduces the amount of manual work required to manage complex SAP systems by empowering people to focus on quick identification and resolution of issues. Avantra specializes in automating repetitive activities like monitoring, reporting, audit, security, and updates.

### Actionable Insights

#### Better Business Experience

Avantra provides insights that your team can instantly use and act on through the detection of anomalies across complex SAP landscapes as well as cloud-based SaaS services. Its industry leading landscape insights integrate with a smart notification engine and ServiceNow for workflows to ensure the right person gets the right information at the right time.

### Operational Transparency

#### Security, Compliance and Audit Readiness

Avantra provides complete transparency across your business landscape including security, auditing, issues and updates via notifications, dashboards and SLA reports. With completely customizable options in all of these areas, Avantra is designed to be business facing, technical team facing and auditor facing.
